CS aerotherm stepped into the commercial bakery equipment domain, in the year 1997, with a long-term technical collaboration with FN Aerotherm, Denmark to manufacture rotary-rack (B-900 and B-1300) and electrical deck-ovens and most advanced Diesel, Gas, Electric Rotary Rack ovens. Today our product range not only meets the demand of domestic clients but also find their way to highly satisfied clientele in countries of Indian sub continent, Middle East and Africa.

For the expanding domestic and international client database, our brand 'CS Ovens' stands for quality, variety and dependability.

Moulder for Bread and Rusk Toast

The Long Moulder is designed for moulding long loaves of bread and rusk toast. It's sturdy construction makes the machine suitable for use in automatic and semi automatic bread and rusk production plants. We offer a compact and competent range of Long Moulders with Teflon coated rollers that prevent dough from sticking.

Casters make the machine operate silently. You can choose between SS and MS for the body frame. Moulding tables and side guards can be changed swiftly. It has safety assurance of CE standards. Centring rollers are provided to ensure that dough falls exactly in the middle and passes through the Teflon coated rollers.

Standard Features:

- High Quality Teflon coated rollers.
- Easy Cleaning and Maintenance Option.
- A robust design guarantees a long life.
- Caster wheels enable easy mobility.
- Moulding table and side guides can be changed quickly and easily.
- Safety Assured By CE Standards.
- Centring rollers are provided.
